خراسان رضوی - مشهد

بسمه تعالی

جناب آقای چمنی

معاون محترم هماهنگی امور اقتصادی استانداری خراسان رضوی

موضوع: دعوت از شرکت‌های دانش‌بنیان و استارت‌آپ‌ها در نمایشگاه بین‌المللی فناوری و صنعت یونان.

با سلام؛

احتراماً به آگاهی می‌رساند؛ برابر اعلام سفارت کشورمان در آتن، نمایشگاه بین‌المللی فناوری و صنعت یونان (Industry and Tec 2023) از تاریخ ۳ تا ۵ آذر ۱۴۰۲ در آتن برگزار خواهد شد، که از تعداد محدودی از شرکت‌های دانش‌بنیان و استارت‌آپ‌های مطرح بویژه در حوزه صنعت، هوش مصنوعی و فناوری برای حضور دعوت شده است.

نمایشگاه یادشده، بخش‌های مختلفی از جمله؛ اتوماسیون، الکترونیک، باتیک، هوش مصنوعی و انرژی خورشیدی را در بر می‌گیرد. ضمن ارسال بروشور و اطلاعات تکمیلی، رایانامه بخش اقتصادی سفارت به نشانی sec@mfa.gov.ir جهت کسب اطلاعات بیشتر در دسترس می‌باشد.

احمد معصومی فر

مشاور وزیر و رئیس نمایندگی

رونوشت :

جناب آقای میرزایی شهرازی رئیس محترم پارک علم و فناوری خراسان رضوی - وزارت علوم، تحقیقات و فناوری

جناب آقای رجبی رئیس محترم سازمان صنعت، معدن و تجارت استان خراسان رضوی

جناب آقای توکلی زاده رئیس محترم اتاق بازرگانی، صنایع، معادن و کشاورزی خراسان رضوی

جناب آقای صیفی مدیرعامل محترم شرکت نمایشگاه‌های بین‌المللی مشهد

جناب آقای چگنی مدیر کل محترم دفتر دیپلماسی اقتصاد مقاومتی - با سلام و احترام؛ با اشاره به رونوشت نامه شماره ۱۷۵۷۱۰۶ مورخ

۲۹/۰۶/۱۴۰۲ سفارت‌مان در آتن

جناب آقای گیوزاد سفیر محترم جمهوری اسلامی ایران - آتن - با سلام و احترام بازگشت به رونوشت نامه شماره ۱۷۵۷۱۰۶ مورخ

۲۹/۰۶/۱۴۰۲

جناب آقای همت پناه رئیس محترم اداره اطلاعات اقتصادی و همکاری‌های توسعه‌ای - با سلام و احترام؛ با اشاره به رونوشت نامه شماره

۱۷۵۷۱۰۶ مورخ ۲۹/۰۶/۱۴۰۲ سفارت‌مان در آتن

MANUAL

TECHNICAL & SERVICES FACILITIES

EXPOSYSTEM
WE KNOW HOW

Benchmark in Modern Exhibitions

EXPOSYSTEM was founded in 1993, in Thessaloniki. Due to its successful business model, in 2002 EXPOSYSTEM started offering exclusive technical support at ATHENS METROPOLITAN EXPO, the largest and newest exhibition and congress center in Athens. In 2003 EXPOSYSTEM starts operating a branch and storage areas of 2.500 sq.m. in Anthousa, Attica

The Exhibition Organizers and the Exhibitors are offered quality services due to the cooperation between the Mediterranean Exhibition Center (MEC) and the two following companies: Mediterranean Trading International Exhibitions, which is the managing company of the Exhibition Center, and EXPOSYSTEM S.A., which offers technical support.

EXPOSYSTEM's technical support to exhibitions, conferences and events includes a great number of quality services, covers all exhibition needs and secures the smooth running of every event - during its preparation/construction, operation and dismantling.

The growing needs of both organizers and participants in this area have led EXPOSYSTEM's personnel to the implementation of a highly successful, integrated management system, which meets all the needs of their customers and offers high return on their investments and high quality services at the right time.

Advantages

- > Commitment to the exhibition & conference needs
- > Technical expertise
- > Highly specialized and experienced personnel
- > Integrated portfolio of exhibition services
- > Use of modern technical infrastructure and design software programs
- > Excellent knowledge of the exhibition venues due to its exclusive partnership with THESSALONIKI EXHIBITION CENTER, ATHENS METROPOLITAN EXPO and MEC

Services

- > Standard and upgraded types of shell scheme stands (OCTANORM system)
- > Furniture and exhibition equipment
- > Floors and carpets
- > Electrical devices and services
- > Digital printings for area branding & signage
- > Audiovisual equipment
- > Rigging services
- > Construction of customized stands
- > IT services - Internet connections
- > Lift services and logistics
- > Security services
- > Cleaning services
- > Water-supply and drainage services
- > Graphic design services
- > Promotional and advertising materials
- > Promotional groups and services
- > Photoshoots - Video Recordings - Live Streaming

EXPOSYSTEM'S customer-oriented philosophy, focus on the exhibitors' needs, expertise and know-how make it a significant contributor to the success of your participation to any exhibition or event.

The Center of all Business Activity

The Mediterranean Exhibition Center - MEC has been operating since 1989 hosting a variety of commercial and consumers' exhibitions as well as conferences, corporate, cultural and entertainment events.

It is located on 301 Athinon - Lavriou Avenue, in Paiania, easily accessible both via Lavriou Avenue (301, Lavriou Avenue) and Attiki Odos (Exit 17 - Kantza).

It covers an area of 47,000 m² (12,000 m² exhibition area [1 Hall] and 35,000 m² outdoor parking area).

The upgraded facilities, the operational infrastructure and the high level of services provided, offer flexibility and comfort to organizers and participants, satisfying even the most demanding requirements for the successful organization of exhibitions, conferences and events.

Consultancy

You are more than welcome to contact us in order to talk about your requirements!
Our highly specialized and experienced personnel are definitely going to offer unique suggestions and successful solutions within your budgets.

Designing Solutions

Our designing solutions reflect our belief that aesthetics and functionality are equally important.
Recognizing the uniqueness of every client, we offer solutions that are targeted to your own personal needs and desires.
Therefore; we guarantee your dynamic presence in the highly competitive environment of exhibitions.

Supervision of your Stand's construction [from the very beginning till the very end]

By constantly monitoring the construction of your Stand, we aim at reducing your stress.
Due to our close supervision, you no longer have to worry about the coordination of the Stand's construction process and its final delivery.

Preparation of Participation

Exhibitor Service Desk

Mediterranean Exhibition Center (MEC)
301, Lavriou Ave. | 190 02 Paiania, Attica
T: (+30) 210 6659741, (+30) 210 3511885

email: mec@exposystem.gr | izakuch@exposystem.gr | mchletsou@exposystem.gr

Remarks on the Price-List

For your order to be valid, you should fill out the Order Form with pricing information, stamp and signature. The latter should be sent to us no later than 20 days before the opening of the exhibition via email | izakuch@exposystem.gr | mchletsou@exposystem.gr
The completion of your order requires the full payment of the respective amount by bank transfer to the following accounts (IBAN) and the forward of the deposit slip via e-mail.

NATIONAL BANK OF GREECE: SWIFT CODE ETHNGRAA

IBAN GR13 011 084 000000 840 470 23795

PIRAEUS BANK: SWIFT CODE PIRBGRAA

IBAN GR62 0172 2310 0052 3107 2349 059

- > The exhibitor holds the full responsibility for his exhibits (including machinery-exhibits) and thus; he must take all the necessary safety measures regarding static and operation.
- > The maximum height of the Stands is determined by MEC's Operation Regulations which is published at its site, as well as the Operation Rules of the exhibition
- > Should you object or disagree to any service provided by EXPOSYSTEM, please inform our Customer Care Department by the end of the exhibition's opening day.
- > Our equipment and services are only provided during the official duration of the exhibition.

Not Permitted

- > Drilling/nailing and painting of panels and aluminum frames *(for suspending purposes, you may request special hooks from the Exhibitors' Service Desk)*
- > Rigging any item from the ceiling or any other structural part of the halls, without any prior approval, requirement or order *(Rigging Services)*.
- > The rigging of any equipment or object from the lighting, plumbing, fire protection, ventilation and air-conditioning networks or from any other point of the Exhibition Center's ceiling, pillars, and walls.
- > Covering walls and corridors, electrical and water supply installations.
- > Any intervention to the electrical installations without prior approval, requirement or order *(Electrical Equipment Services)*. No such intervention is allowed at Standard Booths.
- > Power supply to stands whose electrical installations have been completed by the exhibitors' partners and electricians of the exhibitors will only become available after the latter's submission of the necessary documents: the electrical plan, declaration of work undertaken and the order form stating the requested power in KW.

Custom Made Stands - Special Constructions

Clarifications

- 
- > For carpet orders, the carpet is placed prior to the Special Construction.
 - > The electrician, responsible for the installation of your stand, must necessarily submit a stamped Installation Permit document. He is allowed to stamp the document only if he is a university or technical school graduate. Otherwise, the Association of Electricians has to verify it. Along with the latter, he must also hand in an Electrical Method Statement, analyzing the electrical works that will be carried out.
Another prerequisite for the electrification of your Stand is the former submission of an Electrical Plan, stamped by an electrical engineer or the Association of Electricians.
The above mentioned Electrical Plan should state the requested total volume (KW) and type of electric power (1phase/3phase) and the exact position of the Distribution Board. This information should also be mentioned in the Order Form, claiming the need for power supply and the installation of the Distribution Board. The Order Form is completed by the Exhibitors themselves and has nothing to do with the documents that need to be submitted by the electrician (*Order Form p. 35*).
 - > In case the exhibitor installs his own distribution board, he must definitely have an escape relay, since the board is single-phase (up to 1 KW). If the board is three-phase, then the voltage relay should also be three-phase.
 - > If your electrician cannot provide you with such a board, you can order one from EXPOSYSTEM SA (*Order Form p. 35*).
Please, bear in mind that a power supply board for machinery cannot be provided.

Electrical distribution boards available

- > 3, 6 or 12-way three-phase distribution board (380V, female-ended, red-type Legrand connector 5x32) -for lighting or motion-sensor lights)
- > In case the exhibitor does not comply with the above mentioned instructions or receives unauthorized electrical power and has not submitted a certified and complete electrical plan on time, EXPOSYSTEM reserves the right to immediately seize his power supply without any notice.

Standard Shell Scheme Stands

Clarifications

- > No third parties are permitted to make any electrical installations or constructions within the Type 2 exhibition stands. However; the exhibitor can ask for extra lighting (if need be) by completing and filing the relevant Order Form (*Order Form p. 34*).
- > An electrical switch board, plugs and lightings are necessarily positioned within the stand and cannot be removed or replaced. If you wish their being placed in a particular position, you need to send a plan of your Booth 10 days prior to the exhibition's opening.
- > Orders that concern electrical installation or/and constructions (*e.g. installation or connection of floodlights, storage areas, lighting grid systems*) cannot be executed without a relevant plan (*Floor plan form p. 63*). The latter must be submitted at least 10 days prior to the exhibition's opening.
- > Please note that no fixings may be made directly on the wall panels or the exhibits/ furniture. If need be, please contact the EXPOSYSTEM Exhibitor Service Desk and a wide range of solutions will be offered to you. Moreover, all materials must be removed from the wall panels at the end of the exhibition, without causing any damage. The latter always burdens the exhibitor.
- > If a different type of exhibition stand -rather than Type 2- is requested (*such as Type 1 without constructions*) in less than 10 days prior to the exhibition's opening, the exhibitor is additionally charged with the dismantling/decommissioning cost. (*Order Form p. 37*).
- > The construction materials (*necessary for storage rooms, offices, etc.*) and the exhibits/ furniture can also be placed outdoors, as long as the latter are roofed and protected from extreme weather (*e.g. heavy rain, wind*).
- > Any alteration to the carpet color is subject to our products' availability -provided that your order is completed on time- (*Order Form p.47*).

Departure

- > After the end of the exhibition, exhibitors first have to settle any financial obligations with EXPOSYSTEM. Secondly, they have to remove all exhibits and decoration materials used during the exhibition within the time limit specified by the Organizers. Should the exhibitors leave any construction materials on site, an additional removal cost will be charged.
- > Furniture provided by EXPOSYSTEM is recollected in the last evening after the exhibition's closing.
- > EXPOSYSTEM bears no responsibility in case of loss, damage, etc. of exhibits during the preparation, operation and dismantling of the exhibition. Security and guarding services are exclusively related to the Exhibition Center's building installations. Therefore; you are kindly requested to remove all small exhibits or personal belongings (e.g. laptops, computers, TV sets) in the evening of the exhibition's final day

Standard Booths

Description

- > Aluminum, silver colored octanorm frame, with columns, horizontal girders and filling material of white colored pvc - 2.5 m. height
- > 30 cm fascia with exhibitor's logo / company name / stand number (1.52 x 0.20 m) at the Stand's open sides (2.20 m in height), with aluminum girders and filling material of flimsy (perforated) PVC
- > Aluminum girders are placed on the roof (height: 5,50cm). Carpets are placed on the floor and each organizer can pick the color of his choice.
- > Furniture and electrical equipment for standard booths are provided in accordance with the Facilities Services of each organizer.

Extra Services

Rigging Services

The orders related to rigging services (*Order Form p. 57*) must be submitted at least 30 days prior to the opening of the exhibition and must be accompanied by all necessary forms (detailed plan and a Declaration Letter). Maximum rigging weight per point 50Kg. By all means, EXPOSYSTEM retains the right not to fulfill your requirements that fall under constraints regarding static or safety reasons.

Water Supply Services

The orders related to water supply (*Order Form p. 62*) and drainage connection (where feasible) must be submitted at least 30 days prior to the opening of the exhibition and must be accompanied by a detailed plan (*Floor plan form p. 63*). The endpoints of all the devices must have the following characteristics:

- > Water supply: 1/2", 3/4", 3/8"
- > Drainage: 1 1/4" or Ø32

Such services are available only if there is a well within the boundaries of the Pavilion. In any other case, their provision may not be possible -even if a relevant order has already been placed.

We highly recommend elevated structural floor, which creates a hidden void for the passage of drainage/water suppliers.

The cost of the connection includes all materials like piping, wiring, water consumption and required work time.

Cargo Services

The orders for Cargo services must be submitted at least 30 days prior to the opening of the exhibition and must be accompanied by the list of machinery, including their exact dimensions and weights. This kind of service is offered upon request and based on scheduled appointments (*Order Form p. 61*).

CLARIFICATIONS

- ▶ On standard booths no electrical installations or constructions by third parties are allowed.
- ▶ The electric panel, the sockets and all luminaires need to be placed in the structure and cannot be removed. If you wish their placement at a specific point, you are kindly requested to provide us with a draft up to 30 days prior to your entering the exhibition area.
- ▶ Power supply (kw) is included in the luminaires' prices.
- ▶ Both the installation and the power connection of the exhibitor's luminaires can only be completed if the latter are led type and have a Schuko plug at their very end, are grounded and in good condition.
- ▶ The kw pricing is multiple of 1kw.
- ▶ Multi plugs are not provided.
- ▶ Due to limited availability, orders are executed according to priority.
- ▶ In case of loss or damage, the equipment must be immediately replaced and compensation -determined by our company- will be claimed.

To confirm your order, you must send this form and deposit proof via e-mail: izakuch@exposystem.gr - mchletsou@exposystem.gr at least **20 days** prior to the opening of the exhibition. You are kindly requested to settle your account no later than 2 days prior to the opening of the exhibition.

and I submit -as an attachment- the relevant **Electrical Plan**.

You are kindly requested to design your exhibition stand and signify the exact spot of the distribution board as well as the requested volume and type of electrical power using floor plan form (p.63)

CLARIFICATIONS

- ▶ The Pavilions which require Special Constructions must include a Distribution Board with protective relays. If your own electrician cannot provide one, you can order it from EXPOSYSTEM. Power supply board for machinery cannot be provided.
- ▶ A prerequisite for the electrification of your stand is the former submission of an Electrical Plan, stamped by an electrical engineer (along with the Association of Electricians permit and an Electrical Method Statement, analyzing the electrical works that will be carried out).
- ▶ The kw pricing is multiple of 1kw.
- ▶ Power strips are not available.
- ▶ Due to limited availability, orders are executed according to priority.
- ▶ In case of loss or damage, the equipment must be immediately replaced. and compensation -determined by our company- will be claimed.

To confirm your order, you must send this form and deposit proof via e-mail: izakuch@exposystem.gr - mchletsou@exposystem.gr at least **20 days** prior to the opening of the exhibition. You are kindly requested to settle your account no later than 2 days prior to the opening of the exhibition.

CLARIFICATIONS

- MEC checks all rigging plans in order to verify their implementation or make necessary amendments.
- EXPOSYSTEM retains the right not to fulfill exhibitors' requirements due to restrictions caused by the conditions of the roof above their Stand or due to security reasons. The company follows regulations determined by MEC, which is responsible for approving all requests.
- Only EXPOSYSTEM and its certified - authorized partners are responsible for installing roof rigging points in all exhibition areas.
- All relevant services are offered after thorough study of various factors including exact location, weight and height of the rigging equipment.
- The request form concerning rigging services must be filed at EXPOSYSTEM no later than 30 days prior to the beginning of the exhibition's preparation works.
- This request form concerning rigging services must be accompanied by the Rigging Plan, which includes all required rigging equipment and details concerning the electrification system and the exact locations, weight, height, dimensions and descriptions of the materials used.
- Max weight per rigging point 50Kg.
- The customers are fully responsible for any possible damages that may be caused by their inaccurate information giving or rigging services that have been offered by themselves, their employees or contractors. EXPOSYSTEM does not take any responsibility for roof rigging- or any other constructions made by the customers themselves.
- All former rigging services will be exclusively offered for the purposes of the exhibition reported in this request form and will be applied to the reported Stand positions and surfaces
- Due to limited availability, orders are executed according to priority.

To confirm your order, you must send this form and deposit proof via e-mail: izakuch@exposystem.gr - mchletsou@exposystem.gr at least **20 days** prior to the opening of the exhibition. You are kindly requested to settle your account no later than 2 days prior to the opening of the exhibition.

You are kindly requested to design your exhibition stand, highlighting the exact desired location of water suppliers, internet access points, etc. using floor plan form (p.63).

CLARIFICATIONS

- Both the drainage and water supply services are available only if there is a well within the boundaries of the Pavilion. In any other case, the provision of these services may not be possible - even if a relevant order has already been placed.
- We highly recommend elevated structural floor, which creates a hidden void for the passage of drainage/water suppliers. We would really appreciate your informing us about the floor covering of your stand.
- The endpoints of all your devices should have the following characteristics: water supply: 1/2", 3/4", 3/8", drainage: 1 1/4" or ø32.

To confirm your order, you must send this form and deposit proof via e-mail: izakuch@exposystem.gr - mchletsou@exposystem.gr at least **20 days** prior to the opening of the exhibition. You are kindly requested to settle your account no later than 2 days prior to the opening of the exhibition.

Till (Decommissioning Day):

Acknowledging full responsibility and being aware of the legal sanctions, I do solemnly declare that:

1. All the information mentioned above is true.
2. In case of construction of a two-storey stand, I will submit a Static Study Plan.
3. I have completed my Stand's construction by my own means and its height does not exceed 3 meters.
4. I follow strictly all current regulations and legislation. All the necessary health and safety measures have been taken, in order to avoid accidents at my staff's or other third parties' expense and to prevent any damage.
5. I personally guarantee that my Stand's construction meets all the technical, safety and static requirements. Furthermore, I declare that I carry full responsibility -both criminal and civil- for (a) any possible bodily injury, (b) any labor or other accident and (c) any damage that may be caused to third parties or this construction, respectively.
6. I undertake the responsibility to remove all construction materials from the Pavilion, after the exhibition's closing -at the predetermined time specified by the organizers- .

M.E.C. - ATHENS

1st International Exhibition INDUSTRY.TEC: November 24th to 26th 2023

Our goal is a modern and competitive industry in the era of industry 4.0 and the energy transition.

In [Technoekdotiki / T-Press](#) industry and production are in our DNA. We are consistently and passionately serving the effort to transform Greek economy into a productive one, using cutting-edge technologies, high-level industrial services and the upgrading of human resources.

This recent crisis period during pandemic with supply chain disruptions has further highlighted the value of domestic production chains and the need to ensure a high level of production capacity in our country. Greek industry has demonstrated outstanding examples of resilience and adaptation, with high export performance at the forefront.

Industry, which remains at the heart of rapidly transforming economy, is in the process of preparing for successful adaptation and transition to the age of the digital revolution in terms of industry 4.0 & Logistics 4.0, as well as the green transition. Meeting its needs in modern equipment and services, innovative technologies and flexible financing is a crucial factor for success.

Today, our decision is not just to organize an Industrial Equipment exhibition, but to create in our country an exhibition institution that brings together the country's dynamic production units with the companies that can offer them the necessary solutions for their modernization and more efficient operation.

M.E.C. - ATHENS

With the main goal of becoming strong allies in their quest for growth and success, in a time of uncertainty but also of great opportunities!

In a 32-year period, [Technoekdotiki / T-Press](#) has acquired the necessary tools, experience, knowledge and creative tenacity that ensure the success of the new pioneering exhibition of [INDUSTRY.TEC](#) for industrial technology and services, to be held on **November 24th to 26th 2023** at **MEC Exhibition Center** in Paiania, Athens, Greece.

An exhibition that will prove to be a high-value asset, both for the industrial equipment and services sector and for the industry itself. An exhibition that will become a strong institution, a place for training in new technologies as well as an opportunity to present, analyze and exchange opinions on the burning issues of the industry and its equipment.

[INDUSTRY.TEC](#) will present all the latest developments in technologies and services that shape the world of industry today and in the future: Modern Automation, Drive & Power Transmission Systems, Mechanical Components & Solutions, Compressed Air & Vacuum, Robotics Systems, Industry 4.0 and Artificial Intelligence Applications, Logistics 4.0, Energy Saving Systems, New Energy Applications and Circular Economy.

Believing that we share the same vision and belief that sustainable development is built on solid production bases, we invite you to become active participants in our new initiative.

ΘΕΡΜΟ ΥΔΡΑΥΛΙΚΟΣ

THERMOYDRAVLIKOS

T-Press's first and oldest magazine, made its debut in March 1991. With its quality text and content, the magazine succeeded in redefining and shaping the industry itself as its channels of information became accessible to more businesses and professionals.

"Thermoydraulikos" is a point of reference and leading source of information for heating, cooling, a/c, natural gas, water supply, bathroom fixtures, sewerage system and insulation.

It reaches contractors, plumbers, installers, professionals with burner maintenance, engineers, students, as well as constructors, importers and traders.

Since 1991, a steady point of reference for the industry's professionals

Visit our website:
www.thermoydraulikos.gr
for full updates and
unlimited access to the
magazine's content

- It features special reports and technical articles signed by distinguished scientists who aim at informing and enhancing the industry's know-how.
- Each volume features new tendencies and market potentials, introduces new products and company novelties and familiarizes readers with the protagonists, the key players and the entities behind the business.
- Each volume also provides full updates on all the latest developments, activities of professionals, state entities engaged with cooling, heating, air conditioning, water supply and natural gas.

The magazine has associated its name with one of Greece's most dynamic industries that greatly contributes to the national economy with productive and trade activities, extroversion, flexibility, huge projects and installations.

Since 1991 "Electrologos" has not ceased to monitor the developments in Greece, covering with unique prestige and validity all areas concerning the electrical and lighting industry.

It offers comprehensive and valid information to contractors, mechanical engineers, importers and traders of electronic equipment, architects, designers, decorators etc.

A huge must just like light in darkness

Visit our website:
www.electrologos.gr
for full updates and
unlimited access to the
magazine's content

- The publication hosts special reports on areas concerning the electrical and lighting industry and hosts technical articles by distinguished scientists.
- It also features new trends, introduces innovative products and the inspiring people, entities or professional bodies behind them.
- It additionally updates on developments, news and activities of the electrical and lighting industry.

«Power transmission» bi-monthly came to contradict those unconvinced who claim that Greece has zero production.

The publication covers all the latest developments in local industry, production, growth, putting emphasis on the healthy aspects of the national economy.

It was first published in 1994 and ever since, it covers all areas of industrial machinery such as automations, robotics, networks, metalworking, motion and transfer, mass and energy, tools, ergonomics, quality, security.

Its main recipients are mechanical engineers, shipyards, commerce and tourism, technical companies, technical departments of State and local bodies, maritime companies, machine shops, foundries etc.

It also appeals to construction and industrial equipment companies.

Technology, industry, success

Focusing on industrial equipment and cutting edge technologies

Visit our website:
www.metadosi-ischios.gr
for full updates and
unlimited access to the
magazine's content

- The magazine's content relates with technological innovations, presentation of technical applications, scientific approaches concerning energy efficiency, power saving and proper equipment maintenance.
- It hosts special reports on targeted areas of interest. Also makes sure its readers are continuously updated by hosting articles of distinguished scientists, aiming at enforcing the know-how of those responsible with maintenance and proper development of industrial units.
- Readers get acquainted with new products and systems introduced to the greek market by the industry's main players. They are also informed on the latest developments and multiple activities of the industry.

ΕΡΓΟΤΑΞΙΑΚΑ θέματα

ERGOTAXIAKA THEMATA

The magazine has closely followed and registered Greece's growth and biggest construction projects. In fact, it has steadily been reporting developments on construction, infrastructure investment and its relevant equipment.

Since 1995, its content focuses on construction, equipment, tools and techniques. It continuously offers updated information on selected auctions of public projects, new construction machinery, activities and products, projects under construction. There are also plenty of interviews and live coverage from construction sites.

The magazine appeals to construction companies executives, Technical Chambers, Technical Departments of local governments, engineers, architects, contractors, construction machinery users etc.

Where “giants” get informed about public and private projects and construction machinery

Visit our website:
www.ergotaxiaka.gr
for full updates and
unlimited access to the
magazine's content

- It features technical analysis on construction material and its evolution, construction machinery, new models of earth movers, spare parts, accessories, trailer trucks.
- It contributes with updates concerning public work auctions, projects under construction, new products and services.
- It reports on international exhibitions and undertakes sponsors events, conferences, congresses, forums - and educational programs.

Logistics & Management made its debut in 2000. In fact, it is the first magazine of its kind in Greece and one of the few existing in Europe.

Its pages have witnessed the progress and evolution of the country's history of transport, logistics, restoration, distribution. The magazine also covers and reports on all events and world trends on logistics.

Among its readers are executives from trade and industry, businessmen, logistics related personnel, professionals, scholars, students etc.

“Transports” news and delivers information

Visit our website:
www.logistics-management.gr
for full updates and
unlimited access to the
magazine's content

- It interviews distinguished personalities from the logistics industry.
- It presents exclusive researches and scientific data, business initiatives, public works, services and products related with the Logistics chain: from transport and informatics to material handling, safe and security and human resources.
- As a Media Partner “Logistics & Management” has supported and continues to support all the top events of the sector, including all the nationwide conferences of the Hellenic Logistics Company (EEL), participates in established Greek forums for Transportation and Supply Chain organized by private companies, industry associations or university bodies and has “travelled” at the largest international exhibitions in Germany, Italy, Turkey, etc.

Car & Truck

"Car & Truck" was first published in 2003 and ever since it covers monthly all the latest developments in the market, in the sectors of professional vehicles and road transportation, with validity and professionalism.

With several thousand kilometers of tests, with reports, presentations and exclusives, "Car & Truck" has won the title of the most prestigious magazine in Greece in its field. This is the secret that has made the magazine one of the best and most prestigious of its kind in Europe.

Follow the leader!

Visit our website:
www.car-truck.gr
for full updates and
unlimited access to the
magazine's content

- It publishes test drives and reviews light duty, closed and open box trucks (van, vanette, pick-ups), trucks over 3,5 tons, all types of trailers, buses, mini buses and taxi vehicles.
- It provides information on road and highway status, truck stops, fuel prices and also features interviews, researches, articles, technical analysis, reports.
- "Car&Truck" is a favorite among professional drivers who deal with local, national and international transport and professionals or individuals who seek a vehicle to address their multiple needs.

Ecotec

ΜΗΝΙΑΙΟ ΠΕΡΙΟΔΙΚΟ ΓΙΑ ΤΙΣ ΤΕΧΝΟΛΟΓΙΕΣ ΠΕΡΙΒΑΛΛΟΝΤΟΣ

"Ecotec" magazine was first published in 2005 and became a pioneer on its field in a European level. Its content touches technological issues and how they interact with the environment.

It also showcases methods, machinery, practices and ideas serving sustainability, environmental protection and restoration. To name a few: Renewable energy sources, biologic cleaning, ecological construction, recycling, management of gas, liquid and solid waste, energy savings, alternative technologies.

It reaches technical companies, industries, municipal entities, public organizations, hotels, environmental technology companies, educational institutions, operators, ministries, etc.

The green technology of the future

A pioneer publication in Greece and Europe

Visit our website:
www.ecotec.gr
for full updates and
unlimited access to the
magazine's content

- It monitors the course of Green Economy in national and local level.
- It reports and familiarizes its readers with the new model of the so-called Circular Economy featuring interviews with key people.
- Pioneers by presenting researches and innovative techniques based on projects carried out by the country's Educational Institutions.
- Hosts articles, interviews, special reports on specific projects.
- It analyzes cutting edge technologies and practices so that businessmen, investors, individuals, Public Entities and Local Governments can get acquainted with a new eco-friendly world.
- Ecotec magazine observes and follows all developments concerning green technologies. To name a few: recycling, waste management, power saving, renewable energy, water technologies, decontamination, alternative technologies, climate change, corporate social responsibility etc.

Ascen.tec

ΤΕΧΝΟΛΟΓΙΕΣ ΑΝΕΛΚΥΣΤΗΡΩΝ • ELEVATOR TECHNOLOGIES

magazine

"Ascen.Tec Magazine" is four-monthly and covers the developments of the elevator industry. The magazine was published for the first time in 2019 during the first international exhibition "Ascen.tec / Elevator Technologies" which is organised by "T-Press".

Among its recipients are elevator companies, technicians and installers, professionals who work with maintenance, construction companies executives, contractors, architects, designers, decorators, public administration and local government executives, trade unions, property owners, persons with disabilities, hotels and hospital executives.

Elevators on the spotlight

Visit our website:
www.ascen-tec.gr
for full updates and
unlimited access to the
magazine's content

"Ascen.Tec Magazine" includes:

- Special reports on the market and articles by distinguished scientists and experts of the elevator industry.
- New trends on the elevator market, new products, innovations and key persons.
- The latest developments, conferences and events organised by companies, businesses, local governments and state entities involved with the elevator industry.

"Agro.tec" magazine was first published in 2021 and it's bi-monthly. The magazine aims to contribute to the reliable information of all those involved in the primary sector, with pioneering research, articles, reports, interviews, collaborations with experts and universities. It highlights, in an innovative way, all the issues related to agriculture, livestock and fishery.

"Agro.tec's" goal is to become every producer's "tool" and inform with consistency, knowledge and reliability for all those that compose the new era, that is based on experience, but also in cutting-edge technology coming from the future.

Agricultural development

The voice of the primary sector's professionals

- It hosts special reports on targeted areas of interest and articles of distinguished scientists.
- It features new trends, introduces innovative products and the inspiring people, entities or professional bodies behind them.
- It reports on the latest developments, conferences and events organised by companies, businesses, local governments and state entities involved with the primary sector.

ENERGIA.TEC

ΗΛΕΚΤΡΟΛΟΓΙΚΟ ΥΛΙΚΟ • ΦΩΤΙΣΜΟΣ • ΣΥΣΤΗΜΑΤΑ ΑΣΦΑΛΕΙΑΣ • ΗΛΕΚΤΡΟΚΙΝΗΣΗ

“ENERGIA.TEC / Electrical Equipment - Lighting - Security Systems – E-Mobility”

Exhibition made its debut in 2016. Ever since, it is being staged every two years and has already been greatly endorsed by the industry’s most prominent businesses, professionals and scientific bodies.

The Exhibition is the industry’s meeting point. In addition, it turned into an institution thanks to the high quality standards set by “Technoekdotiki / T-Press”.

For four days, the Exhibition Hall is transformed into a innovative workshop dedicated to electrical equipment, home and professional lighting, decoration and security systems.

**Electrical equipment, lighting,
security systems, E-Mobility**

www.energia-tec.gr

Greece’s exclusive exhibition for the sector

“ENERGIA.TEC” main participants include:

- Electrical Equipment
- Lighting
- Security Systems
- E-Mobility
- Automation
- Telecommunication and Electronic Equipment
- Software
- Tools and Equipment
- Power Generation and Distribution

“Verde.tec – Environmental Technologies” Exhibition made its debut in 2017 and is being hosted annually. It aims at introducing and promoting new eco-friendly technologies at a time when environmental policies have become a world priority to combat climate change.

The Exhibition and the related events of “Verde.Tec Forum” attract representatives of local governments, business agents, research institutes and the business community as a whole.

During the Exhibition, the “Greek Green Awards” are being given, rewarding local governments, businesses and relevant Bodies that care for the environment, the circular economy and sustainable development.

Technologies of the environment

www.verde-tec.gr

An initiative turned to an institution of Circular Economy

“Verde.tec” main participants include:

- Local governments, Council and City Authorities, local water supply sewerage and solid waste authorities, local European and international agencies.
- **“Verde.tec”** also hosts companies that deal with the following:
 - Restoration of the Environment, cutting-edge and energy save technologies
 - Construction machinery
 - Renewable energy sources
 - Construction and building maintenance
 - Product and material recycling
 - Eco-friendly industry, machinery, tools and equipment
 - Services and Supply Chain Management Technologies
 - Automobile vehicles

A new dynamic exhibition was created by "Technoedotiki / T-Press" for the Elevator industry. "Ascen.tec - Elevator Technologies" was organised for the first time in 2019 and it was overwhelmingly embraced by the industry and the market.

The exhibition features manufacture, maintenance and development of modern elevation systems for both persons and merchandise.

Elevator technologies

www.ascen-tec.gr

An Exhibition that elevates you!

"Ascen.tec" hosts businesses related with:

- Elevators, lifts for persons with physical disabilities, accessories
- Escalators and people movers
- Elevators for the disabled
- Software companies
- Security and control systems
- Cabins for persons, goods and vehicles
- Monitor equipment, control button, digital receivers
- Network technologies: Optical fibres, intercom, WiFi
- Cranes

ergo.tec

The message has been received and it has been loud and clear. Construction machinery companies were seeking for a point of reference to promote their projects through a specialized trade fair in Greece.

"Technoekdotiki / T-Press" is here to fill the void. The 1st "Ergo.tec" Trade Fair will take place between the 8th and 10th of October 2021, at MEC Exhibition Center in Paiania.

"Ergo.tec" aims at promoting in the best possible way, cutting-edge construction technology, signaling a dynamic comeback after a long negative period. Along with the Trade Fair, "Technoekdotiki / T-Press" is also proud to announce the "Ergo.tec Forum", a three-day convention, which aims at boosting the industry's real potential while redefining its position in the new reality.

Construction machinery

www.ergo-tec.gr

***The construction site industry
is back to work!***

"Ergo.tec" is open to all companies that deal with the following:

- **Construction machinery** such as: Earthmoving, lifting, digging, drilling, transportation, loading-unloading, road construction, tunnel opening, ports, demolition, concrete production, quarrying, recycling, cleaning, as well as components, spare parts and lubricants.
- **Construction equipment** such as: Molds, scaffolding, metal constructions, generators, lathes, buckets, explosives, insulation, tools, instruments, uniforms, software, as well as control security systems, security and quality, communication, design, earthquake protection.
- **"Ergo.Tec"** also hosts: **State entities and agencies, embassies, chambers of commerce, organisations, professional and educational bodies, trade unions, institutes, banks, insurance or leasing companies.**

Green Transport & Logistics

**SUPPLY CHAIN
FREIGHT TRANSPORTATION**

"Technoekdotiki / T-Press" introduces the new dynamic exhibition and conference, "Green Transport & Logistics", which aims to promote the new trends in the field of supply chain, freight transportation and "green" transition. Based on Logistics 4.0, sustainable development, Green Deal, and in accordance with the needs and prospects of the Greek and European initiative, "Green Transport & Logistics" exhibition and conference is going to be held every two years, offering the opportunity to the Greek and international professionals, the institutions and small, medium and large companies of the sector and related industries to meet each other, exchange views and launch new collaborations.

Supply chain Freight transportation

www.greentransport-logistics.gr

The Logistics Leaders 4.0 EXPO Logistics Management... Go Green

"Green Transport & Logistics" is open to all companies and organizations with activities in:

- Freight Transportation, Distribution, Last Mile Reverse Logistics and courier services • 3PL and 4PL
- Green logistics technologies • Intelligent transport systems • Cold Chain services • Food Logistics & Agribusiness
- Pharma • Aircargo handling • Ports, Port Equipment & Ports Services • Warehouse Infrastructure & Equipment
- Packaging & Packaging Equipment, machinery and systems
- Material Handling Equipment & Systems (forklifts, reach trucks etc.) • Marking, collection and tracking systems
- New Technologies (Internet of Things, data analytics, 5G, blockchain telecommunications)
- Digital Platforms, software (WMS, ERP, CRM, fleet management etc.) • Cargo, risk and personnel insurance
- Security & Safety systems • Energy saving systems • Industrial equipment • Logistics real estate
- Light and heavy commercial vehicles • Consulting services • Human resources training.
